Meet Our Founder

“Forty years spent recognising quality.”

Jean-Christophe Burckhardt trained in Rome and worked across Europe before settling in Australia. He has drawn every Christophe Living piece for forty years.

He now designs for clients in Australia and for importers and distributors internationally.

About Christophe Living

Since 1987, Christophe Living has designed and made French provincial, Hamptons and modern Parisian furniture, lighting and fabric.

Each piece is drawn by hand from an authentic historical form, then carved, joined and finished by craftsmen who have worked with us for decades. The result is furniture with a past, made for the present.
